

WE ARE HIRING

CAD DRAFTER

Prepare detailed CAD drawing, including dimensions, fastening methods, and other engineering information. This is a partial listing of mainline job duties, but all Faztek Team members are expected to help in all areas of the company to ensure the best possible experience for our customers, co-workers, and ownership.

JOB RESPONSIBILITIES

- Produce three-dimensional models, using computer aided design (CAD) software.
- Layout and draw schematic, orthographic or angle views to depict functional relationships of components and assemblies.
- Analyzing needs and product requirements to create a design.
- Conduct tests and inspections of products, services or processes to evaluate quality or performance.
- Coordinate with and consult with other staff to design, layout or detail components and systems and to resolve design or problems.
- Answer general or technical questions and other inquiries to assist Customer Service relationships.
- Assist with special assignments and projects as required.
- Check all presentations for accuracy before submitting design plans to the Design Manager/Quality Control Manager for final approval.

We are looking to fill immediate openings for 1st shift positions.

- Pay Starting at \$15/hour
- Comprehensive Benefits Package
